

ONGA ANGUS

Complete Pedigree Herd Dispersal Sale

WELCOME

Welcome to KMG Stud Limited's complete dispersal of its pedigree **Onga Angus** herd comprising:

- 16** VIC Mixed Age Cows & Heifers
- 8** Quality just weaned Heifer Calves
- 3** Quality just weaned Bull Calves
- 4** Rising 2 year Stud Bulls
- 2** Canadian blood-lines proven Stud Sire Bulls

Raised on a small 40 Ha property in the heart of Central Hawke's Bay our pedigree Angus herd is comprised of a carefully nurtured mix of Australian, Canadian & USA blood-lines: easy calving, top carcass traits, increased body length & top indexes that are designed to excel when crossed with any of NZ & International weight-gain centric blood-lines.

You won't find **Onga Angus** cattle featuring in the top weight-gain EBV bands due to the stony nature of our soils & frequent near droughts, but just watch them when you put them on some decent tucker!

Take a look at their EBVs, many of which are in the top percentile bands for Angus NZ nationwide, & you will understand why our motto is "BREEDING QUALITY, NOT NUMBERS".

Nothing is surer in life than all good things must come to an end, & old age catches up with all of us whether we give in gracefully or not. As an R78 myself it's finally time to think about retiring, passing on what we have started to other younger breeders – hence this sale.

All animals available for sale BY NEGOTIATION. Viewing by appointment.

HAPPY BREEDING!

Rob Kent & Vicki McLean
Mobile: 021-471727

Comments:

Matriarch of the herd, N75 has produced 7 calves to date, including our Stud Sire Onga Angus AI Capone S11 (Lot 18). Retained because of her excellent EBV Indexes and easy calving as well as her excellent maternal attributes, this year's calf is LOT 1A, and the calf she is carrying is a full-sibling to that calf. Other progeny of hers in this sale: Lot 8 and Lot 23.

Comments:

Done a great job rearing twins this year: Lot 4A and Lot 4B. One of her other progeny is Lot 21.

Comments:

One of our two current SIRE BULLS by the record breaking Canadian HAMILTON FARMS ALCATRAZ 60F, AI has outstanding body length and a strong straight back (just think of all those sirloins) which he passes on to his progeny, as well as excellent easy calving and fertility EBVs with good carcass traits. Out of our herd matriarch, and only R5, he will be an asset to any breeder looking for a quiet bull to improve easy calving, increased body length and carcass quality in their herd.

Comments:

The second of our two top SIRE BULLS by Canadian record-breaker HAMILTON FARMS ALCATRAZ 60F, and the sire we chose to use this year to improve carcass traits as our Breed-Track software highlighted that his EBVs meld extremely well with the EBVs of offspring by his half-brother Al Capone.

He also has the longer body from the Canadian blood-line, but as he has matured he has packed on the muscle as well. At only R5, and a pleasure to have around (he talks to you when he sees you), he has plenty to offer any breeder looking for new blood, easy calving and improved carcass traits. Lot 23 is a good example of what he puts on the ground.

Comments:

Our original FOUNDATION SIRE, sire of some of our older girls - where our good carcass quality, easy calving EBVs first came from.

His EBVs underrated him - his dam pre-dated the system and so didn't have any to contribute!
